5. Treasurer's report: Tim reported that we currently have \$22,744.70 as our ending balance. He reports that donations are coming in at the usual rate each month and we are keeping mostly the same contributions and have not dropped off on our donations so far. The monthly contributions have been combined with October and November for this reporting period. Tim states that if checks come in without a group number, they are tallied in the section labeled donations by checks. Day and time are not enough to count for your group donation it must have a group number. Reps will be budgeted for World and Region representation as needed.
